Judgement Entry of the Cuyahoga County Court of Appeals (November 18 th , 2021).....	15

**EXPLANATION OF WHY THIS CASE IS A CASE OF
PUBLIC OR GREAT GENERAL INTEREST AND
INVOLVES A SUBSTANTIAL CONSTITUTIONAL QUESTION**

This case presents the most critical of Constitutional Questions. 1) Are trial courts within the state of Ohio permitted to fabricate evidence to illegally incarcerate US citizens? 2) Are trial courts within the State of Ohio permitted to erase evidence to frustrate the judicial process and deny US citizens justice? 3) Are appellate courts within the state of Ohio permitted to deny receipt of trial court transcripts, ignore all merit to the appeal, and then dismiss the appeal on "procedural reasons" which blame the appellant for "not filing transcripts"? 4) At what point in such a long string of abuses does it become within the wrongfully persecuted US citizen's right to tear down such a corrupted judicial system and provide new safeguards for their future in keeping with the highest forms and traditions of a government composed "of the People, by the People and for the People."

On August 20th, 2020, I was hauled out of my attorney's office without a warrant in handcuffs over [REDACTED] This *began* the divorce process under Judge Tonya R. Jones for which we are not enjoying a reprisal role in case number DV 22 391235.

Lakewood police officers illegally incarcerated me in St. Vincent's for 5 days. The probate warrant for this incident was a forgery injected into the Cuyahoga County Probate Court by rouge FBI agent, Brandon Brown, with which the appellee had previously established connection and a history of disclosing confidential medical information in violation of HIPAA regulations. (*Confirmation provided by Christopher Wray, Director of FBI, posted at www.Rights4Fathers.com)*

After the incarceration the probate warrant was completely "expunged" from the Cuyahoga County Court system and made to look like the "case never existed." For clarification, the records regarding the illegal probating were first **FABRICATED** and then **DESTROYED** by the Cuyahoga County

Probate Court in collusion with rogue FBI agent Brandon Brown who was in coordination with Allison Stark. This presents two sperate and opposite forms of documents/evidence tampering in the Cuyahoga County Court system relating to Appellant's cases.

Next, Judge Tonya Jones removed all rights and responsibilities of Appellant to his children. Appellant has not seen nor held his children for more than two years. NO EVIDENCE HAS BEEN PRODUCED TO JUSTIFY THIS POSITON. Judge Jones' only reason for the complete denial of Appellant's access to his children is that Appellant has not produced the medical records for the very incident the probate court has expunged and for which there ARE NO RECORDS. Judge Jones' ruling, "Appellant was uncooperative." Funny that...uncooperative for not producing court records which the very court says don't exist. Appellant tried to get Judge Jones the records, the Probate Court obfuscated them and would not provide them despite request. What was appellant supposed to do Chief Justice? Walk into the Cuyahoga County Probate Court with a gun and take the records by force?

During this same proceeding Judge Tonya Jones FABRICATED a domestic violence conviction within her final judgment entry which NEVER HAPPENED. This is the third instance of evidence fabrication/erasing in Cuyahoga County Court systems.

No worries...that's why we have appellate courts right Chief Justice O'Connor? So, appellant took it up in the Eight District Court of Appeals which according to the Cuyahoga County Court of Common Pleas Docket DR 20 382383 official transcript was delivered for on 1/14/2022 according to appellant instructions and rule Appr.9b. Yet somehow on 2/2/2022 the appeals court converted the record "Sua Sponte" into a 9a records for "failure to file a transcript". Tell me Chief Justice O'Connor...DID THE TRANSCRIPT FALL BEHIND AN APPEALS COURT DESK ACCORDING TO THAT OLD LAWYER TRICK I'VE SEEN IN MOVIES A DOZEN TIMES?

The lack of a transcript being the main argument by Appellee why the appeal should be dismissed, Appellant provided the transcript a second time to the Eight District Court of Appeals IN FULL QUADRUPLICATE hard copy per appeals court standards, as part of response to Appellee's arguments. At that time, appellant was specifically told by the Eight District Court of Appeals to stop sending them documents and that they were not going to consider the submitted transcripts now delivered for a second time according to proper procedures.

Appellant then posted the transcript directly online at www.Rights4Fathers.com to ensure in no uncertain terms the Appeals court had access to the document and made the appeals court aware of its digital existence and location. He then informed the appeals court should they in any way dismiss his case over the transcript "not being filed" it would be the fastest appeal to the Ohio Supreme Court in your state's history. Did that deter the corrupted Cuyahoga County Courthouse? Of course not, Chief Justice O'Connor. Despite acknowledging they received the document in the oral hearing, the appeals court continued with their sham that they never received the transcripts. This is directly contradicted by Judge Jones' docket which clearly marks the transcripts delivered on Jan. 14, 2022. Which is why we're here together now.

Not to sound condescending Chief Justice O'Connor, but here in the United States of America we have a concept known as a "fair trial." Since it is obvious the Judges in your "Peoples Republic" are unfamiliar with the concept let me explain how a fair trial works so we're all on the same page, and hopefully find a path forward towards resolution.

In a United States fair trial, a Court must have evidence before incarcerating a man in a mental institution. A court can't just lock a man up for five days and then destroy the records associated with the incarceration. A court certainly can't claim the man is "uncooperative" in his divorce for not producing the very records destroyed by the court. Most certainly, a court can't take a man's children

from him over such fabrications. For more on this, I encourage Your Honor to review ORC 5122 for further reading.

In a United States fair trial, an Appeals court can't throw legally prepared and presented transcripts in the garbage and then pretend they didn't receive them so they can dismiss the case on "procedural reasons" blaming the appellant. Here in the United States of America we call that tampering with evidence at best and bald face corruption of a courthouse at worst and we don't need a law citation for it. This type of tampering by the court is generally understood as illegal.

Another prime example of this type of corruption can be seen in CV 22 962585 where Judge Gall dismissed my case without prejudice because I failed to attend a Case Management Conference the Court never told me they were having. The Judges of Your People's Republic do understand they DO actually have to provide in the affirmative service copy of their orders to a litigant BEFORE they can expect that litigant to follow them, correct? Your judges do understand that is the nature order of cause and effect correct Chief Justice?

A final example can be seen in case 21 CRB 0037 where Judge Hagan has ordered a Bill of Particulars produced by Rocky River Police Department to substantiate their Perjurious police report, for which no evidence of wrongdoing has been produced and Appellant is being denied access to counsel in direct violation of the 6th Amendment to the United States Constitution. This after, Appellant brought these abuses to the Chief Justice's attention through formal Affidavit of Disqualification. Yet still here I sit, no evidence, no attorney, no court date, no bill of particulars and a capis warrant issued for my arrest. Funny how Appellant seems to be the only one who suffers consequences for not complying with People's Republic courts. Everyone else seems to be able to get away with it Scott Free.

Chief Justice, in the United States of America, when we come across such corruption run amok in our government, it is not only our right as Citizens but our RESPONSIBILITY to resist. It is our job to

actively TEAR DOWN the corrupt system to prevent it from endangering our fellow citizens. We do this primarily through the first 10 Amendments to the United States Constitution, the first and second being the chief tools used.

Now at this point in the Memorandum, I am supposed to state the case, its facts, and make argument in support of the proposition of law. But with such bald face corruption clearly documented and presented, at every level of your court system (municipal and county trial, as well as appeals) what's the point? YOUR JUDGES DON'T FOLLOW THE LAW, so there's no reason to cite law or make sound argument. However, if you're truly interested in the case and its facts everything is I have asserted is documented and cross indexed at www.Rights4Fathers.com. I encourage you to pay the site a visit before passing judgment. Especially, given what happens next. Let's get to the conclusion, shall we?

CONCLUSION

My name is Easton Horner, and I am a sworn codeword "Minuteman" of the United States. Through formal security audit made in parallel and coordination with Christopher Wray, Directory of the Federal Bureau of Investigation, ***I have concluded*** the Cuyahoga County court system to be in direct violation of the principles and obligations of the United States Judicial system and am using my authority under codeword Minuteman protocols to label that system a danger to national security.

Full documentation of the corruption present in the Cuyahoga County court system has been and will continue to be published at www.Rights4Fathers.com. Broad spectrum notification of the corruption has been and will continue to be made to more than ten thousand press contacts at every known local, regional, state, and national newspaper, radio, television, and digital circulator in all 50 states with many including an international footprint. The 535 members of the US Congress have been and will continue to be contacted. YouTube content documenting the corruption has been and will

continue to be published. Finally, the entire corruption will be broad spectrum email blasted to more than 30 million of Appellant's fellow US Citizens.

In all publications, specific names of perpetrators, including the names of those government officials involved in the corruption WILL BE PUBLISHED, contact information for those same individuals WILL BE PUBLISHED, and the publication will not stop until my children are rescued and those responsible brought to justice.

These actions are taken under "*Minuteman Press*" a trademark pending brand of Sword and Shield Digital Security LLC, an Ohio LLC, through which the formal Minuteman Security audit of the FBI and Cuyahoga County Court system was conducted. All actions are taken under and protected by the First Amendment to the US Constitution under the powers of a Free Press.

Further, all orders by your Judges are hereby rescinded under my authority as a Minuteman of the United State Intelligence Community. No warrants will be honored, no child support paid, no protection orders recognized, and nothing relating to www.Rights4Fathers.com will be taken down, altered, or removed. All Minuteman assets and capabilities, including my own freedom and my ability to bring this corruption into the light of day will be defended through all necessary force, up to and including lethal force should your officers escalate to that level, and under no circumstances will any officer of your government take me into custody alive. All actions are taken under and protected by the Second Amendment of the US Constitution under the power of a well-regulated militia's right to keep and bear arms during a declared and verified national security emergency as part of a full fledge Minuteman operation.

Now Chief Justice O'Connor, your options are clear. You can either:

- 1) Purge the corruption and rescue my children in keeping with your responsibilities as Chief Justice of the State of Ohio.

2) Enjoy reading the Minuteman Press articles as they are released as part of a Free Press engaged in a peaceful protest protected under the First Amendment.

3) Shoot a codeword Minuteman in service of his duties. However, be advised, while I NEVER shoot first, I do shoot back, have advanced paramilitary training, and will defend myself according to the established rules of engagement for United States military personnel. **I strongly urge you to not put live ammunition into the field.** Minuteman protocols specifically call for peaceable civil disobedience and up to this point ALL actions taken by Appellant have been peaceful. Let's KEEP it peaceful...agreed?

Choose wisely Chief Justice, use blue ink, and press hard. Whatever you choose is going to be broadcast to 30+ million people and I don't want to misquote you.

APPELLANT AFFIDAVIT

This Memorandum, and its contents, represent the truth, the whole truth, and nothing but the truth, to the best of my knowledge, and I swear to its validity under penalty of perjury through affixing my signature and seal.
